

In reference to DIN EN 1846 1-3, DIN 14555-3

## Basic Specification

### ▪ Chassis

- › Type: Scania P370 B 4x4
- › Engine : 272 kW / 370hp
- › Wheelbase: 4750 mm

### ▪ Cabin

- › Crew: 1 + 5 (2/2/2)
- › Driver cabin: Original OEM cabin
- › Crew cabin: proCAB with swivel stairs
- › 2 seats with SCBA holder and three-point seat belt against driving direction
- › 2 seats with three-point seat belt in driving direction
- › 2 Action towers on seat bench against and in driving direction between the seats

### ▪ Superstructure

- › Rotzler winch TR030/7, 50kN rated power
- › Rosenbauer aluminum body made of self-supporting bolted and glued aluminum sheet and profile construction with aluminum sandwich panels
- › Integrated equipment compartment L1/R1 on both sides with lower compartment flaps
- › Rear cargo compartment for three rolling containers
- › Storage boxes on both sides behind the rear axle for additional equipment
- › Side door with slide-out stairs and handrail
- › Split tail lift Palfinger MBB 1500S with control module at the rear right and remote control

### ▪ Compartments

- › Rosenbauer roller shutters with barlock closure
- › Lower compartment flaps with integrated warning lights
- › Swivel tray COMFORT for hydraulic rescue tools and battery-powered fan
- › Swivel wall COMFORT for handtools
- › Variable interior design with COMFORT mounting systems according to the specifications of the fire department Bernau b. Berlin

### ▪ Loading in side compartments

- › L1: Handtools, battery-powered fan, sealing and sampling equipment, chemical protective suits
- › R1: hydraulic rescue tools, rescue platform, traffic warning equipment, Stabfast, rescue board, telescope ladder
- › Storage box right side: slide-out hygiene board
- › Storage box right side: Shackles, pulleys, lashing straps

### ▪ Loading in rear cargo compartment

- › Loading according to local requirements
- › 1x RTE RC Profile rolling container B-hose
- › 1x RTE RC Profile rolling container supports for traffic accident and heavy rescue
- › 1x RTE RC Profile rolling container lighting

# ST Logistic

## Heavy Rescue Unit

### ▪ Lighting

- › Near-range LED surrounding lighting above crew compartment
- › Near-range LED surrounding lighting on sides along entire length of superstructure and rear
- › Maneuvering spotlights on mirrors and on the side of the rear of the superstructure
- › 2x LED beams front in the sun screen
- › LED interior lighting in the equipment compartment all around
- › Light mast FLEXILIGHT LED, electrically rotatable and swiveling
- › Rear traffic warning with orange LED modules

### ▪ Electric

- › Martin compressor horn with 4 sound horns
- › Rosenbauer design roof superstructure with integrated flashing lights
- › 2 LED flashing lights in the front radiator grille
- › 2 LED flashing lights in the rear superstructure
- › 2 LED flashing lights in the rear low mounted
- › 2 LED flashing lights on the superstructure sides
- › 230V power supply with combined compressed air supply Rettbox® quick-release coupling
- › Chargers for battery-powered devices, vehicle batteries, and TS batteries

### Dimensions & Weight

|                          |                       |
|--------------------------|-----------------------|
| L x W x H                | 8730 x 2550 x 3420 mm |
| Permissible total weight | 18.000 kg             |

Product number PS910-1000
